

## Glen Cove Public Library Makerspace 3D Printing Request Form

The 3D printer at the Glen Cove Public Library is available for patrons to create and develop ideas and projects. 3D modelling software is available on the Library's computers, and a 3D scanner will be available for use in the near future. Objects may be downloaded from the website [thingiverse.com](http://thingiverse.com) or other "creative commons" sites. After your 3D files have been created or downloaded, Dremel's "slicing" software is available on the three desktop PCs in the Makerspace to prepare your files for printing. ***Please create your project before submitting this form.*** You may submit .gcode (sliced) files either via flash drive or by email to [makerspace@glencovlibrary.org](mailto:makerspace@glencovlibrary.org). The charge for 3D printing will be \$1.00 per hour, chargeable in 15 minute increments. Patrons are responsible for payment regardless of the success or failure of the print job. **Individuals wishing to use the Makerspace must have a Glen Cove library card in good standing.**

### Basic Information:

Name: \_\_\_\_\_ Library Card No. 21571000 \_\_\_\_\_

Makerspace Agreement & Waiver signed by patron:  YES  NO
